**A complete solution for
Accounting & Taxation in UAE.**

FinCore Accounting LLC provides comprehensive accounting services designed to support businesses in managing their financial health and compliance needs. Our expert team offers customized solutions to navigate the complexities of VAT, corporate tax, business valuations, and more. We are committed to delivering reliable, efficient, and accurate financial solutions that help businesses thrive in an ever-changing regulatory landscape

Core areas of Expertise

START

Bookkeeping Services

Efficient bookkeeping services ensure accurate financial records, streamlined operations, and compliance with tax regulations.

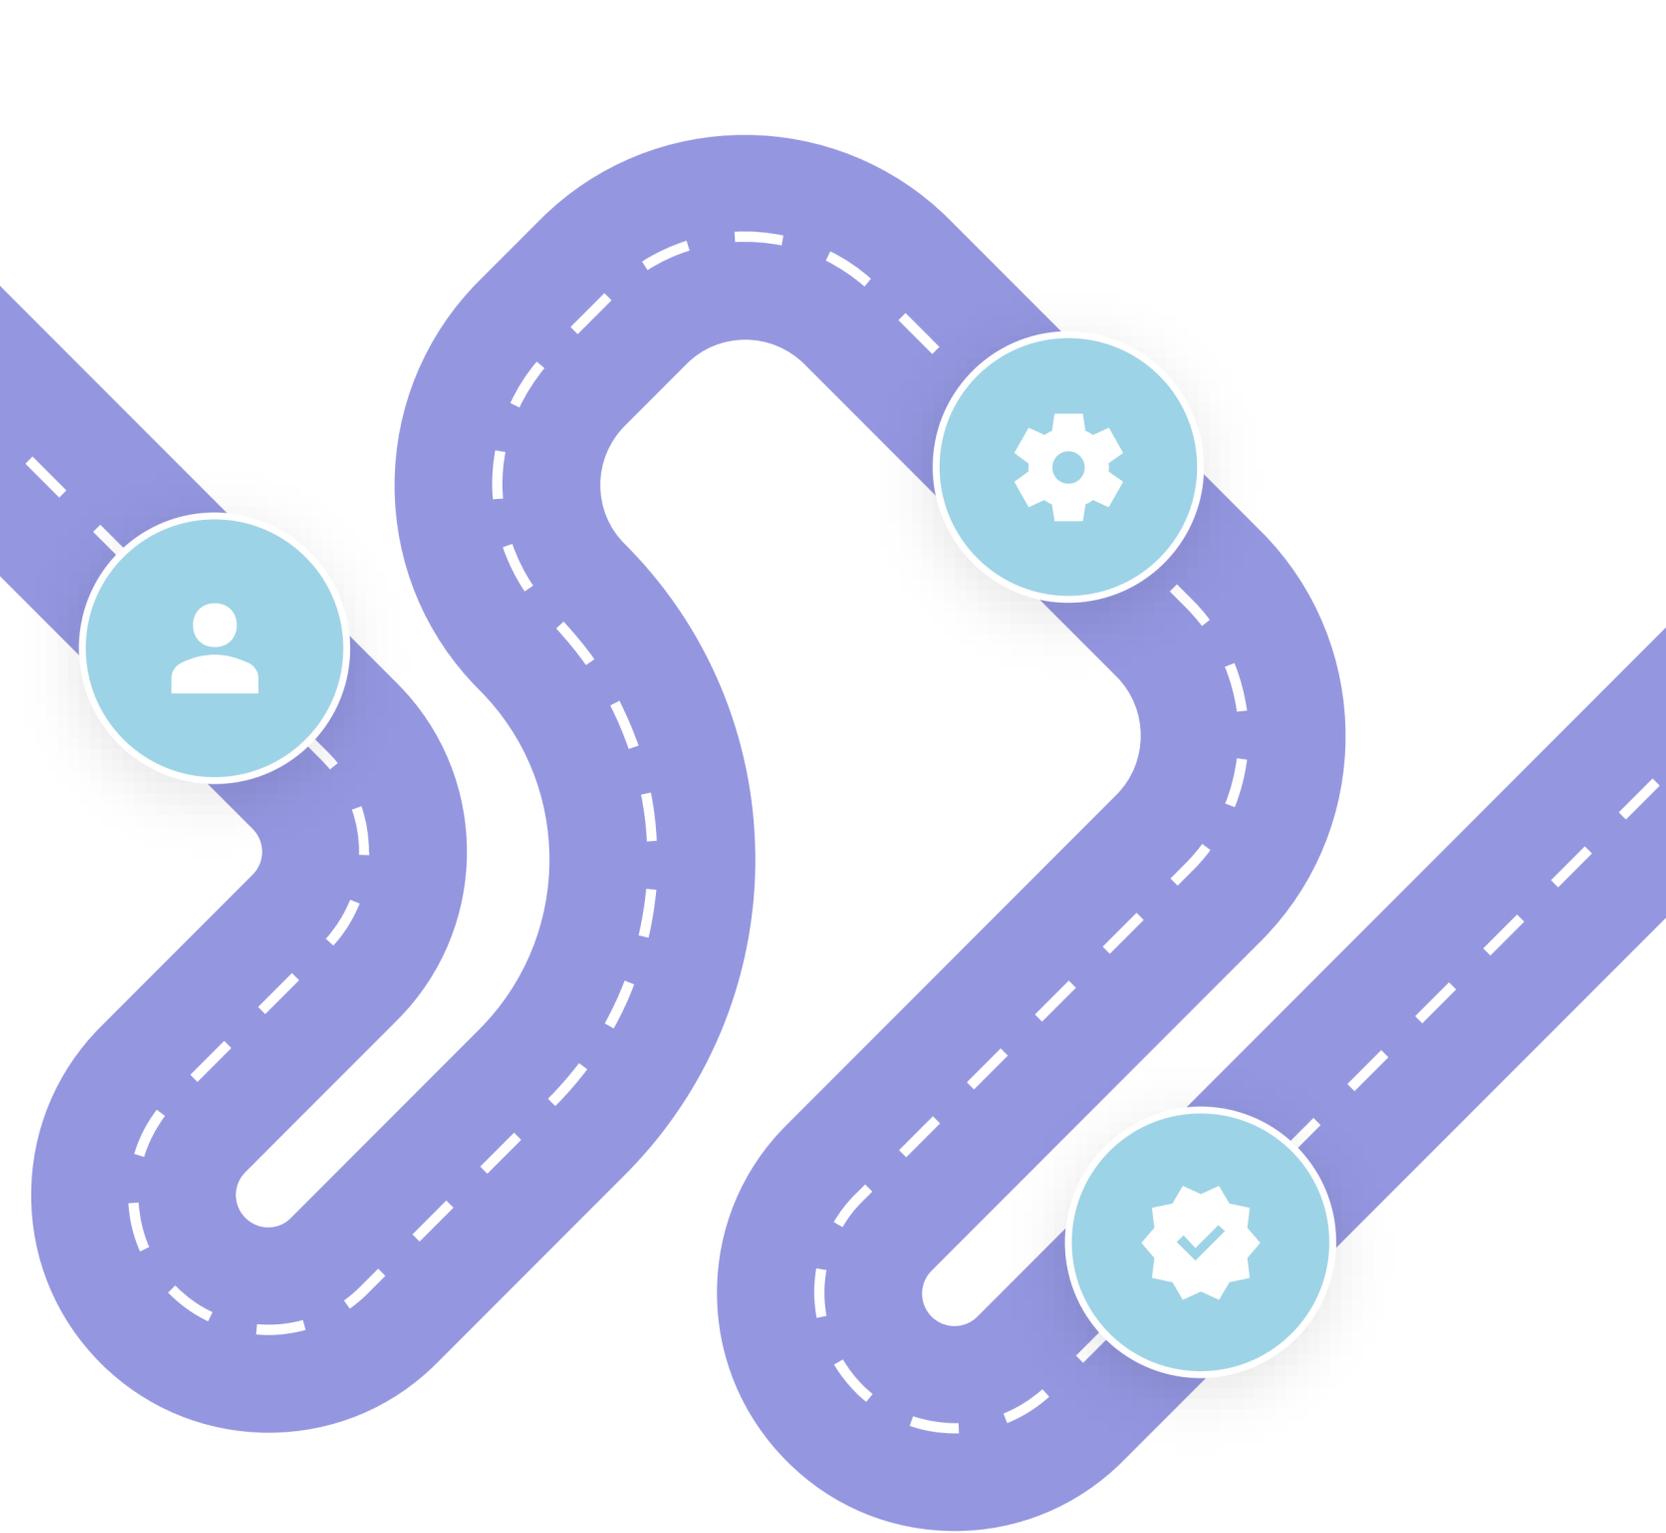

Financial Reporting & Analysis

Financial Reporting and Analysis provides critical insights into a company's performance, aiding strategic decision-making and ensuring transparency.

VAT Services

VAT services ensure compliance with tax regulations, accurate calculations, and efficient handling of Value Added Tax processes.

Core areas of Expertise...

Core areas of expertise encompass specialized skills, knowledge, and proficiency in key domains that drive impactful results and professional excellence.

D Corporate Tax
Corporate tax refers to the levy imposed on a company's net income, ensuring compliance with fiscal regulations and contributing to public revenue.

E Business Valuation
Business valuation determines the economic worth of a company, providing critical insights for strategic planning, mergers, acquisitions, and investment decisions.

F Audit Services
Audit services provide an independent examination of financial records, ensuring accuracy, transparency, and compliance with regulations.

G ERP Implementation Services
ERP implementation integrates core business processes into a unified system, enhancing efficiency, collaboration, and decision-making across the organization.

H Payroll & PRO Services
Payroll and PRO services streamline employee salary management and government documentation processes, ensuring compliance and operational efficiency.

Bookkeeping Services

Bookkeeping is the foundation of any accounting service. It involves recording, storing, and retrieving financial transactions, helping businesses stay compliant and informed about their financial health.

- General Ledger Maintenance
- Accounts Payable & Receivable
- Bank Reconciliation
- Payroll Processing
- Journal Entries

Financial reporting & analysis

Financial reporting provides businesses with critical insights into their financial health, aiding in decision-making and strategic planning.

Key Services:

- Financial Statement Preparation
- Management Reporting
- Cash Flow Analysis
- Budgeting & Forecasting
- Variance Analysis

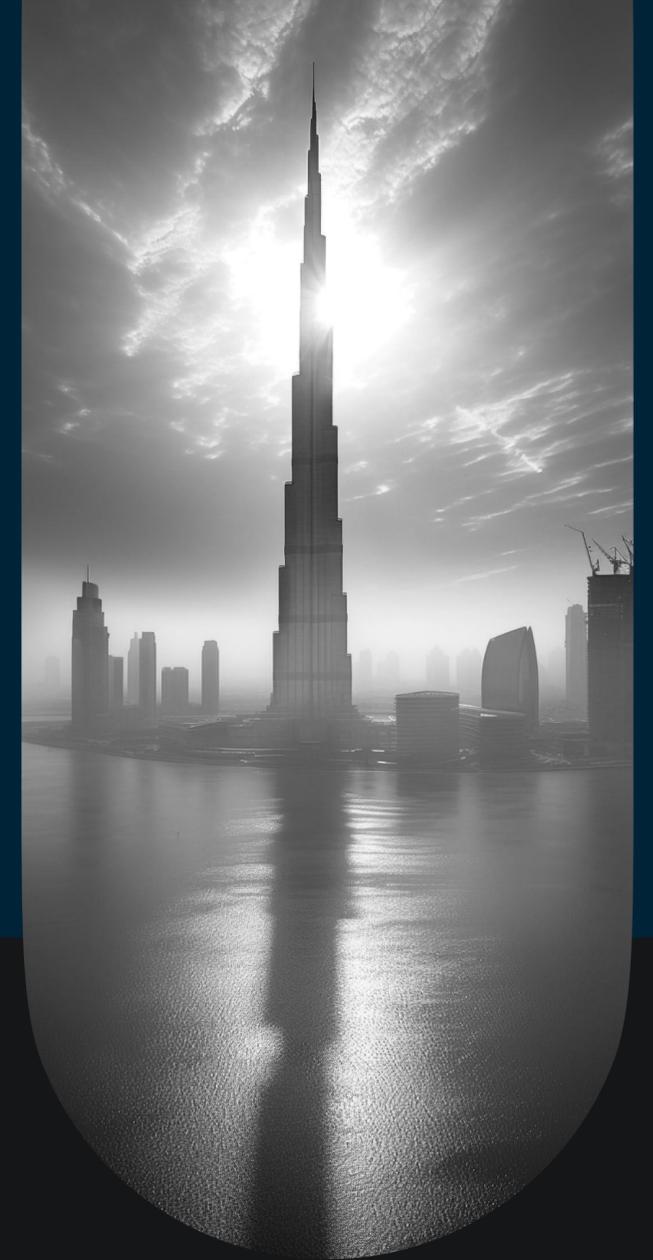

Corporate Tax Registration

We simplify corporate tax filing, ensuring compliance with tax laws while helping businesses reduce their tax burden through strategic planning.

VAT Services

Our VAT services ensure that businesses comply with the latest tax regulations, mitigating risks and maximizing efficiency.

- VAT Registration & Deregistration
- VAT Filing & Returns
- VAT Advisory
- VAT Audits & Compliance

Business Valuation

We provide accurate business valuations to assist in informed decision-making for mergers, acquisitions, investment analysis, exit planning, and dispute resolution.

- Mergers and Acquisitions
- Investment Valuation
- Exit Planning
- Dispute Resolution

Audit Services

Auditing services ensure that financial statements are accurate and reliable, fostering transparency and confidence among stakeholders.

- External Audits
- Internal Audits

Payroll Services

We provide end-to-end payroll solutions, ensuring compliance with labor laws and tax regulations while streamlining payroll processes.

- Payroll Processing
- Tax Withholding & Filing
- Employee Benefits Management
- Compliance with Labor Laws
- Payroll Reporting

ERP Implementation

We provide complete ERP solutions and manage customer IT infrastructure, partnering with major ERP providers like Tally, Odoo, Zoho, SAP, and QuickBooks. Our services include ERP system implementation and data migration.

Clinical Costing

Clinical costing is the backbone of financially sustainable healthcare. It goes beyond traditional accounting to reveal the true cost of delivering patient care—right down to the ward, procedure, and clinician level.

What We Offer

- Map patient journeys to cost drivers
- Integrate clinical and financial data seamlessly
- Generate accurate cost reports for internal and external stakeholders
- Align costing with DRG (Diagnosis-Related Group) and ABF (Activity-Based Funding) frameworks
